

**ROLLING**  
LEGAL

## CASE STUDY

### ABOUT

Ana Mendes Lopes Legal, is the brand and image of the project designed and created by Ana Mendes Lopes, Lawyer.

Ana Mendes Lopes Legal is a Portuguese law firm in which every client receives individualised support, duly tailored to their needs.

Due to national and international partnerships, Ana Mendes Lopes Legal ensures complementarity matters in several legal systems, and clients can rely on a service in Portuguese, English or Spanish.

Legal Services:  
Commercial Law  
Real Estate Law  
International  
Employment Law  
Court  
Legal Translation

## PROBLEM

With such diversified legal services and activities in different geographies, Ana Mendes Lopes Legal needed a system that would allow all the information worked on to be gathered together in a centralised manner.

In addition, document management was scattered in various places and it lacked a system that could quickly and intuitively generate information on company activity, especially on the status of cases and invoicing.

Ana Mendes Lopes

## SOLUTION

Ana Mendes Lopes Legal has chosen Rolling Legal because it is, above all, an intuitive cloud platform that allows them to create cases with their own case number.

Rolling Legal also allows them to rationalise processes, improve case management and, ultimately, provide better customer service.

After an implementation that went quickly and smoothly, it is now much easier and more intuitive to create and manage customers and cases.

Documents are now centralised and associated with the related case and client, with paperless, efficient management.

Professional mobility is also now smoother as they can use Rolling Legal anywhere and on any device.

The integration with Office 365, namely Outlook is an added value that is already resulting in an increase of productivity and simplification of processes within the company.

## ROLLING LEGAL

Rolling Legal is a 100% cloud platform, easy and intuitive to manage, which offers Law Firms or in-house Lawyer numerous benefits, such as:

- Monitoring the business, anywhere and on any device;
- Managing cases comprehensively

through immediate access to all relevant information;

- Controlling Budgets and financial management of cases;
- Analyse the team's productivity;
- Reduce the time spent on administrative tasks;
- Working more efficiently as a team.

Rolling Legal can be integrated with external applications (Office 365, Gmail, OneDrive, Sharepoint, etc) and adjusts to the needs and sizes of Law Firms or in-house Lawyers. You can customise layouts, reports, dashboards, branding, email templates and much more.
